Ener-Kleen CD

Cleaner & Degreaser

FREE RINSING

NON FLAMMABLE

NO VOC's

Product Description:

Ener-Kleen CD is a state of the art, environmentally safe, highly concentrated biodegradable Cleaner & Degreaser that allows for rapid penetration of all types of soil and is suitable for any surface not harmed by water. Ener-Kleen CD is the most versatile cleaner on the market gentle enough for a vehicle wash but yet strong enough to remove heavy dirt, oil and road film off of heavy equipment in and out of the shop thus reducing inventory and improving economics. Ener-Kleen CD unlike other degreasers is completely free rinsing and leaves no residue and can be diluted with up to 50 parts water.

Physical Properties:

Physical State: Liquid

Specific Gravity: 1.00 +/- 0.005

Solubility in water: Soluble

Odour/Appearance: Water thin, clear purple, mild odor

Boiling Point: 100 °C

pH: 11.5 +/- 0.2

Application:

Ener-Kleen CD can be diluted: 1 part concentrate with 50-80 parts water for general light cleaning. For heavy duty cleaning dilute 1 part Ener-Kleen CD with 5-10 parts water depending on soil. Note: Soil conditions will vary, therefore trial of different dilution rates is recommended to determine proper dilution for the job.

Packaging/ Handling:

Ener-Kleen CD is available in 4L jugs, 20L pails, 208L drums, 1000L totes and in bulk. Before using this product please refer to the Material Safety Data Sheet for all safety and handling information.

Please contact your local Enerspec Manufacturing associate for various application details.

This green product works as well or better than a conventional product, is very effective and Environmentally Safe.
